

ZapBox - Initial Review

The ZapBox undergoes an initial review at a test station where device functions and parameters are checked for quality assurance.

Device Identification

ZapBox Type: _____ **Serial Number:** _____ **Housing Version:** _____

Color Body: _____ **Front:** _____ **Button:** _____ **NFC Module:** _____

Miscellaneous / Special Features: _____

Note: For each ZapBox type, relevant tests are marked with an "O". Each version has options. If not available, please mark with *n.a.* for *not available*.

Testing ZapBox with Display (T-Display-S3)

Test Item \ Type	Compact	Duo	Quattro	ZapOMat	Servo	Hybrid
Output Voltage [V] Terminal 1-2 idle	-	-	-	____V	____V	____V
Output Voltage [V] Terminal 1-2 switched	-	-	-	____V	____V	____V
USB OUT Output Voltage [V] switched	____V	____V	-	____V	____V	____V
CH1 Relay GPIO Pin 12	-	O	O	O	O	O
CH2 Relay GPIO Pin 13	-	O	O	O	-	O
CH3 Relay GPIO Pin 10	-	-	O	O	-	O
CH4 Relay GPIO Pin 11	-	-	O	O	O	O
CH2 Servo GPIO Pin 13	-	-	-	-	O	O
CH3 Servo GPIO Pin 10	-	-	-	-	O	O
Sensor GPIO Pin 2	-	-	-	O	O	O
Display Function	O	O	O	O	O	O
OnBoard-Button Function	O	O	O	O	O	O
LED-Button Function	-	O	O	O	O	O
Panel Opening	O	O	O	O	O	O

Test Item \ Type	Compact	Duo	Quattro	ZapOMat	Servo	Hybrid
Assembly Snap Lock	O	O	O	O	O	O
NFC Module	O	O	O	O	O	O

Testing ZapBox Headless (ESP32)

Test Item	Headless	Headless Servo
Output Voltage Terminal 1-2 idle	-	____,____V
Output Voltage Terminal 1-2 switched	-	____,____V
USB OUT Output Voltage switched	____,____V	-
Terminal 3 - Control Signal Relay Pin 12	-	O
Terminal 3 - Control Signal Servo Pin 12	-	O
Terminal 4 - Sensor 1 GPIO Pin 22	-	O
Terminal 4 - Sensor 2 GPIO Pin 23	-	O
LED-READY Function	O	O
LED-ACTION Function	O	O
Panel Opening	O	O
Assembly Snap Lock	O	O
NFC Module	O	O

Notes

 **NFC Module:** The NFC module can work but still be defective. The error is identified by high power consumption above 0.3A in standby state.

Test Result

Test Result: [] Passed / [] Failed

Other Defects: [] No / [] Yes — If yes, which ones:

Block Time  : _____ **Tester**  : _____
